PRE-MADE ICING WITH TIP

BLOOMING FLOWER MIX

PASTEL MINI BEADS

TROPICAL JELLY TOTS

INSTRUCTIONS

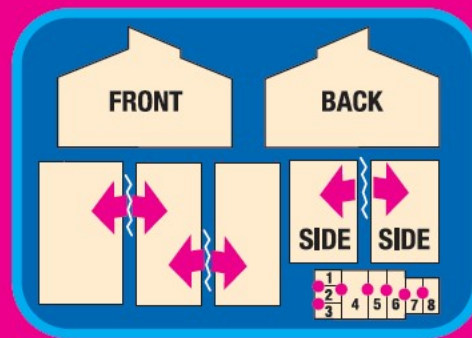

1. ICING PREPARATION:

Remove pre-made icing from kit. Knead / massage the icing pouch for 1-2 minutes bringing icing to room temperature and making it more adhesive

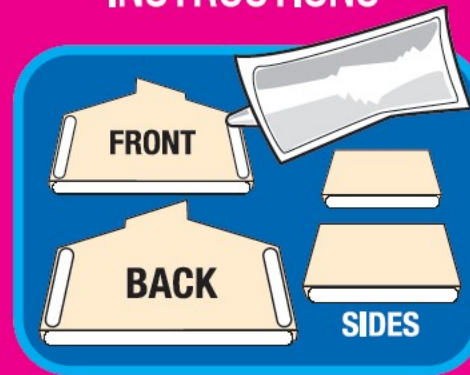

CUTTING THE TIP:

Remove cap and snip the tip 1/4" from the end. Your icing is now ready for assembling the house.

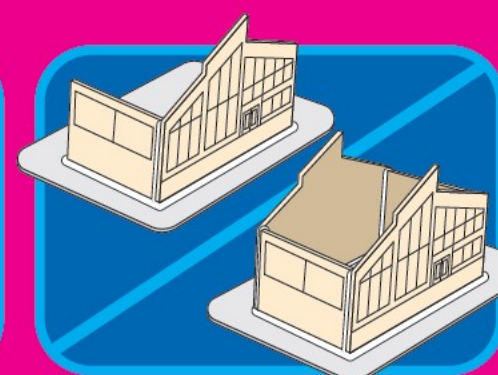

2. ARRANGE HOUSE PIECES FOR ASSEMBLY:

Lay pieces out on the table. Place front and back panels face down. Separate the house pieces by gently breaking along the snap lines between sections.

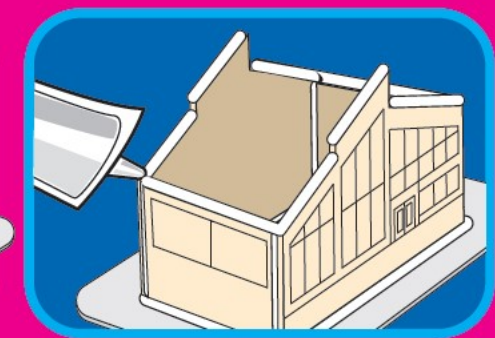

3. PREPARE THE FRAME:

Pipe a thick line of icing on front, back and side panels as shown. Cardboard pad can be used to build your house on adding icing at the bottom of the panels.

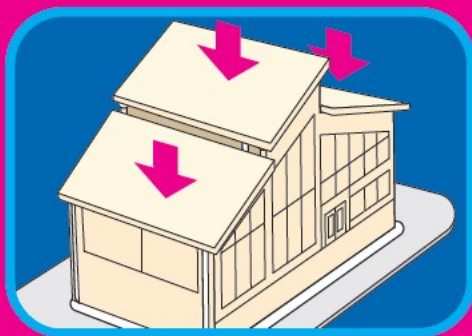

4. ERECTING WALLS OF HOUSE:

Place back panel of the house onto the base, then press a side wall up against it. Repeat process with second side wall and front panel. Adjust walls to create a good rectangle.

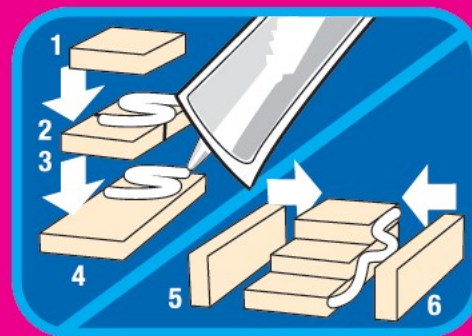

5. APPLY ICING TO HOUSE PEAKS:

Pipe a thick line of icing along the roof edges of front and back panels.

6. ADD ROOF:

Attach roof panels to house peaks and hold in place for one minute while icing sets.

7. ASSEMBLE STAIRS:

Pipe icing on piece 4 and attach piece 2 and 3 and line them up as shown. You can use piece 1 as an additional step, or enjoy it as a tasty snack. Attach piece 5 and 6 to the sides as shown. Ice the stairs to the front of the house.

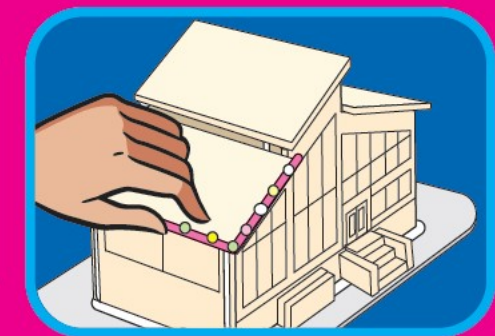

8. ASSEMBLE FLOWER BOX:

Pipe icing on back side of piece 8 and attach to back of piece 7. Ice the flower box to the front of the house. Wait 30 minutes prior to decorating your house.

9. ICING TUBE INSTRUCTIONS:

Carefully cut the end of the icing tube in small amounts, as shown above. Do not cut too large or you will lose detail when decorating.

10. READY TO DECORATE:

You are now ready to decorate your house!
